BILLIARD TABLES. LAZARUS & Co.'s: Billiard Tables are . now the only mes appreciated in India, as a long and steady experience extending over 50 years has proved them to be the best and most suitable for the climate. O. L. & Co. have received a large number of very flattering testimonials from all parts of India, Obina, Buy mah, Ceylon, Manila, Juva, Straits, and Perein, testifying to the superior make and quality of their Billiard Inbles, and while thanking their Friends and Patrons in China for the liberal support so long extended to their firm, would, in soliciting further patronage, beg to mention the following facts which have conduced to the success their efforts have hitherto met with. Every table is made of solid wood, well seasoned and not reneered. The Cushions are constructed on an entirely new principle, introduced by C Land Co., and unlike that adopted by English makers, and are much more durable and lively than English made oushions. No table leaves C. L. and Co.'s premises until it has been stand: ing ready finished for over 12 months, in order to ensure perfectly seasoned material. Every article of furniture, slao, that leaves O. LAZA-Rus and Co.'s Establishment, is guaranteed of Solid and Sensoned Wood.

O. L. & Co. have slwnys ready a large stock of new Cushions on their peculiar principle, and which can be supplied for any table, the accurate length and breadth of the slate bed only being required. THERE has been probably nothing which was hailed with more satisfaction as being ! to improve the trade with China than the who lived in the same street as Mr. R. Walker, opening of the Suez Canal The reduction EDOOR JO PROPERTY FOR THE CHILDRE OF GOODS by more than half was an improvement which, according to all recognised principles, ought to have been of the greatest advantage. Yet. it is perhaps not going beyond the fact tosay that there is nothing which has been productive of greater disappointment to foreign merchants. Its bearing upon the trade. is very admirably summed up by Mr. Consul MEDHUEST-who by the way is always sound and weighty in his views on commercial questions-in his report upon the trade of Shanghai for the year 1872. The report is somewhat old by this time, but what is stated in Gambetta refused to retract. it is, we believe, almost as true at the present day as it was a year and half ago. "The rapid voyages of the steamers through the canal " says the above-named authority " has vastly curtailed the duration of venture, while the telegraph is presumed to have reduced the risk of loss to a minimum. These conditions have stimulated trade by attracting many competitors who were previously excluded from the business by want of capital or credit, for a small capital quickly turned over-new suffices where a much larger sum would have formerly been inadequate, while the improved means of protection which financiers now enjoy renders credit more easily obtainable by men without capital than was the case in the days of long and uncertain sea voyages, and the slow communication of intelligence by steam competition has from these causes been excited to the uttermost." These few lines sum up with tolerable accufracy the chief causes which have conduced to the unsatisfactory state of the Import Trade, of which complaints have for so long been prevalent. During almost the whole of. last year the homeward circulars repeated the same story of overstocked markets and charged one Mok-a-yin, as follows :low prices, and yet goods kept pouring into be found the defendant sitting on the head of tropical plants thrive well; the nutmen has not be found the defendant sitting on the head of tropical plants thrive well; the nutmen has necessary for his sermon as a coursing match. In reference to the advertisement which appears in our advertising columns, inviting renders for the conveyance of Chinese coolies to Port Darwin, in the Northern Territory of South Australia, it may be interesting to our readers for us to give some little information respecting this new Settlement.

Consequent on the explorations of the late

Australia, the whole of that territory was giving that colony the entire meridional centre of the country, bounded on the West by Western Australia, and on the East by the colonies of Victoria, New South Wales and Queensland, In 1864, the first Government Resident, Colonel B. T. Finniss, was appointed. Escape Oliffs, near the after some extent of land was surreyed and much discussion as to the digibility of the place chosen had occurred. Escape Cliffe was abandoned in 1867. In 1879,-the Surveyor-General of South Australia, Mr. G. W. Goyder, was directed to savvey a large area of land and form townships at Port Darwin. This work was most successfully accomplished, and Captain Bloomfield Douglas was appointed Government Resident in February, 1870. chased under four heads, viz., 1. Those who have been robbed of their positions, consequent upon ethediabandwent of their regiments, 2. These who have accepted unattached promotion of their own accord. 3. Those who exchanged to half pay to suit their own personal convenience, or in consequence of ill-health; and 4. Those who have been permanently netired. The claims of class I have been so full admitted that in three ranks the number of those who continue in idleness is now but small. It is with class 2, that certain unattached promotions should be various ranks were thinned, and many of those who had accepted steps resurried to full pay. But in 1871, came the Bill for the Abolition of Purchase. From the moment that Bill passed into law the prospects of the men, who in the previous year had helped the War Office to carry out its reduction of the Estimates, underwent what was to the majority of them ruinous change; from the hour purchase was abolished, the privilege, hitherto extended to them, of making provision for themselves was denied, and now their only prospect, if, indeed a prospect it can be called, is to wait and hope that a war may some day break-enddenly upon us, and that their services may me onto more required. It has to be borne in mind to at the majority of those promoted in April, 1870, were old Majore, Captains, and Subalterns who, being unable to purchase, seeing little or no chance of mmediate advancement in their own regiments. and having suffered the mortification of being constantly purchased over, gladly availed themselves of the opportunity then regarded as favourable of passing to the ligher ranks through the Unattached List. Toking the onse of a Captain, the advantage of a ball-pay company was that by socepting it the rank of Captain was attained, and for a sum of from £300 to £500 an exchange to half pay without much difficulty be progured reach of many who had not the average £1,600. which was, including regulation, the price of a company in most Line regiments. Owing to the prohibition of exchanges from full to haif pay, the chances of those waiting to serve have become, as we have said; hopeless, the few vacancies that have occurred by the retirement of officers upon temporary ball pay having been very properly reserved for officers of disbanded regiments. Thus the men who suffered duction of exchanges wight be expected to suit the convenience of many, but even this would be but a slight boon to the poorer men. who do not possess the necessary sun for effecting an exchange. These have to look to the Horse Guards, but until something be done by Guards can do little to help them. One point at any rate might be conceded. A Royal. THE MUCH MARRIED St. Jerome mentions a widow that marrie her twenty-second husband, who, in his turn had been married to twenty wives! There is an instance recorded at Bordeaux, in 1772 of a gentleman who had been married sixteen times. A woman named Elizabeth Nase. who died in Florence, in 1768, had been married to seven husbands. She was at the ripe age of seventy when last led to the hy meneal altar, and she contrived to survive her "beloved." When on her deathbod, it is stated, she recalled the good and bad points of each of her husbands, and having impartially weighed in her mind the pros and cone, she determined that the fifth claimed the highest merit, and ordered her grave to be with his. In 1768 a redoubtable pair were living in Essex, who had been married eighty-one years; the husband being one hundred-pound bag under his arm, with hundred and seven years old, and his spouse this inscription on the said bag only four years his junior.
